winter bulletin 2014

brentwood house, essex

Full length glazing on first floor while retaining privacy!

Located in an area of good size plots with 250-500m2 housing stock our clients sought not size but quality. In depth briefing analysis and the client clear intent to work together to design a new style of house which would be enjoyable, unique and worthy life time living was central to their requirements. The building would be set back into the plot allowing for glazing all round on the 'public' ground floor. The first floor requirements were for full height glass to bring in light but to maintain privacy whilst creating a striking form. Our solution was a first floor metal 'mesh' which extends up to become a balustrade to the master suite on the 2nd floor. Simple, elegant and timeless design.

St Albans Extension

St Albans Extension finished just in time for Christmas!
We hope to schedule a photographer in the new year to take professional photos of this wrap around extension, so keep an eye on our website if you're as excited to see them as us!

Limassol apartment, Cyprus

Located along the sea front of Limassol are two newly constructed apartment blocks providing private residential accommodation and luxury leisure facilities with direct access to the beach.

Nicolas Tye Architects have been appointed to design and oversee the fit-out of a high quality apartment taking up the entire fifteenth floor which provides the penthouse with magnificent views across the Mediterranean Sea to the South and Mountains to the North.

Hadley Wood House, North London

The proposal, for our site in Hadley Wood, consists of a contemporary single storey dwelling, sunken partially below ground to reduce its visual impact on the surroundings. It is accessible from the existing driveway via a ramp leading to the lower level, where a new turning/parking area including a grass covered garage is proposed. The building is closed visually to the South and opens towards the North.

At Nicolas Tye Architects we like to get in the festive mood and every year we do Secret Santa. It never fails to cause a lot of laughter!

We had a brilliant Christmas meal out at The Plough (Which had the best turkey!) The whole team thoroughly enjoyed themselves.

Foxons farm is completed however there is still some landscaping to be finished. We should be able to get a professional photo shoot conducted in Spring 2015.
