spring bulletin 2015

tolmers park, hertfordshire

Tolmers Park is a Grade II listed building which we have added a single storey flat roof extension to the rear. Some excavation was required to align the internal lower ground floor level with the external garden level. The extension has been carefully designed to preserve and respect the character and appearance of the existing grade listed property.

The external walls of the extension are clad with unstained kiln dried larch timber. The sliding glazed openings to the rear of the extension have a thin dark grey powder coated fenestration. Together the timber and minimal glazing allow the new element to remain subservient to the historic character of the existing building. The considered inclusion of rooflights allows light to penetrate deeper into the plan, allowing for all-day ambient open plan living.

Radlett house, Hertfordshire

The existing generous plot located in north London had a small bungalow of some 100m2 in a somewhat derelict state, working with the planning authority and providing an exemplary piece of design and architecture we were able to provide a solution which utilises some 450m2 over 3 levels with 5 bedrooms, en-suites, open plan living, kitchen and dining space with a central light filled atrium entrance and link through to the rear.

NTA welcomes Javier Poveda, Helder Amorim, Robert Zwierzynski and Joel Mendes to the team as assistant architects.

Thailand house is currently under construction and is due for completion near the end of the 2015. Keep an eye out!

Nicolas Tye Architects will be at Grand Designs at ExCel on stand B107! So if you are going, come say hi to us!

Rushall barn, Herefordshire

Located in a rural area in Herefordshire, the Dingle Barn is an existing stone built threshing barn located in a steep narrow valley, a dingle, and is surrounded by 12.5 Ha farmland.

The scheme provides living accommodation in the existing barn structure and replaces the current deteriorated wooden structure, which was used as animal shelter, with a new building attached to the existing stone barn.

Foxons farm is completed however, there is still some landscaping to be finished. We should be able to get a professional photo shoot completed in the next couple of months.

negril, jamaica

Located on the western coastal edge of Jamaica looking on to the Caribbean this site is located some 3 hours drive west from the capital Kingston and only 20 minutes from Negril the local large town.

The site sits facing west to east on an elevated position with some views towards the sea. There are 10 units to the scheme each of which are around 230m2 with open plan living, dining and kitchen areas on the ground floor with outside eating and entertaining spaces and 3 bedrooms with master en-suite and dressing area along with balcony and a bathroom to the first floors.

At NTA we take sustainability and the environment seriously and we hope to do what we can as a company. We choose to include EcoPoint on our fuel card, which support Yorkshire Dales Millennium Trust whose goal is to lower the UKs carbon footprint. With the help of those who have EcoPoint YDMT has planted 7,911 trees so far.

A few team members had fun trying out a quirky sport called foot golf recently!

Want to know more about what we can do for you?
