

Blissom Road, London. A new high end residential development in Battersea, London. The building is a mix of modern and traditional architecture.

### Sleaford Street, London

We have been approached to review a feasibility study on a site near Battersea Power Station, London for development in to a high end residential apartment scheme, with some commercial and retail facilities. We look forward to seeing this project develop.

### Standon House

We are pleased to see one of our projects completed recently in Standon, Stafford. The works included refurbishment and a new zinc-lad link connecting the existing buildings, providing the Clients with improved facilities and circulation throughout

### Commercial Conversion and Penthouse

Located in Central Milton Keynes, this existing commercial development has been transformed into a high end residential scheme for 25 apartments. Gaining extra value for our clients, we also achieved planning permission and full design and build specification for the new Penthouse roof level.

### City of London Office Fit Out

Based in the heart of the City of London, we have been asked to review the design for a dramatic commercial office space for clients and for the back of house team. A compact unit of 3,000sq ft with client front of house areas, meeting rooms, director's offices, and with open plan offices will make this a unique offering for our clients and visitors.

### Flitwick Mill Opening

The water wheel was officially opened on 7 May 2018

### Marathon Sponsor

We were also featured on Joanne Webb's vest when she ran the marathon
